

Wattstopper DLM Plug Load Controller 20A, 120V, 60Hz, On/Off Part No. LMPL-101

LMPL-101 Plug Load Controllers include a 20 amp relay for on/ off control of connected outlets, and a high-efficiency switching power supply. They are part of a Wattstopper Digital Lighting Management (DLM) system, and enable energy-efficient control of plug loads.

## Features & Benefits

| Plenum-rated controller with line voltage relay and switching power supply                   | Component of Digital Lighting Management integrated control systems      |
|--|--|
| Plugs to other components using Cat 5e cables with RJ45 connectors eliminating wiring errors | Plug n' Go automatic configuration and Push n' Learn for personalization |
| Accepts occupancy sensor signal for energy saving control of plug                            |  |
