

Wattstopper Low Voltage Wall Switch, 1-Button w/LED, White

Part No. LVSW-101-W

LVSW-100 Series Low Voltage Switches are lighting control devices that use conventional point-to-point low voltage wiring for control of single or multiple loads. Each button provides a momentary contact that is intended for use with compatible low voltage relay panels or similar lighting control panels or devices. Each button has an LED indicator that can serve as a status indicator or as a locator light.

Features & Benefits

Sleek single gang devices fit decorator wall plates (not supplied); Blue LED indicator on each button can be used as a 1-, 2-, 3-, 4-, and 8-button models

locator light or as a status indicator

Five color options and custom engraving options; standard buttons may be replaced in the field

The product meets the materials restrictions of RoHS
